SUMMARY

Creative and detail-oriented UI/UX Designer with extensive experience in designing intuitive and user-centric digital experiences. Proficient in Figma, Adobe Suite, and front-end technologies (HTML, CSS, JavaScript), with a strong understanding of user research and interaction design principles. Skilled in collaborating with cross-functional teams to deliver seamless designs that align with business goals. Adept at optimizing workflows and improving user satisfaction through innovative design solutions.

SKILLS

Frontend Development	: HTML, CSS, javascript
Tools	: Illustrator, Figma, Blender 3D, Photoshop
Soft skills	: Teamwork, Adaptability, Time Management, work ethic, creativity
Additional Skills	: Traditional Art, Painting
Languages	: English, tamil

PROJECTS

Teastall products using Blender 3D, Nov 2024

- **3D Modeling and Texturing** : Designed a detailed tea glass with realistic curves and accurate dimensions. Created biscuits with intricate patterns and natural imperfections for added realism.
- **Lighting and Rendering** : Utilized HDRI and area lights to achieve natural illumination, emphasizing highlights and shadows. Rendered the scene with Blender's Cycles for high-quality, photorealistic output.
- **Scene Composition and Enhancements** : Arranged the tea glass and biscuits in a visually appealing layout with contextual props like a wooden table.
- **Creative and Technical Skills Development** : Gained expertise in material properties, lighting setups, and render optimization.

Interactive Parallax Effect for Apple AirPods, , [Link](#) Nov 2024

- Designed a visually immersive prototype featuring parallax scrolling and layered animations in Figma.
- Used Smart Animate to craft smooth transitions for enhanced user interaction.
- Demonstrated Apple-like minimalist design principles with high-quality assets and depth simulation.

Custom Logo Designs, Sep 2024

- **Project Overview** : Designed custom logos for various brands using Adobe Illustrator. Focused on creating unique, memorable visual identities that resonate with clients target audiences.
- **Tools Used:** Adobe Illustrator, Typography, Vector Art.
Skills: Brand identity design, vector illustration, creative problem-solving, and attention to detail.
- **Design Approach** : Collaborated with clients to understand their vision, ensuring logos align with brand values.
